

GREEN INTERIORS

Salient features of the speech

- Why the 'Green' term is adopted?
- Is this a problem, begins after 'Industrial Revolution'?
- How our ancestors solved these problems?
- Are today's interior designers trained for this?
- Which innovative materials are used in today's context?
- Are these materials designed for 'holistic' approaches?
- Thin line between organic & inorganic material.
- Can technical advancements solve these problems, or man will go –
back to nature again?
- Does our culture teach us sustainability?
